# HOME PAGE

As Per the problem statement:

The screenshot shows a web browser window with a single tab titled "Thyroid Disease Detection". The address bar shows the URL "127.0.0.1:5000/predict". The browser's toolbar includes navigation buttons (back, forward, home), a search bar, and various extension icons. The page content is a light blue background with a white form titled "Thyroid Disease Detection". The form contains the following fields and values:

- Age: 27
- Sex: ☒ Female ☐ Male
- TSH measured: ☒ False ☐ True
- T3 measured: ☒ False ☐ True
- TT4 measured: ☒ False ☐ True
- T4U: 100
- T4U measured: ☒ False ☐ True
- FTI measured: ☒ False ☐ True
- FTI: 80

Below the form fields is a blue "Predict" button. At the bottom of the form, a yellow box displays the prediction result: "Have Hypothyroidism".
